C.A. Ramakrishnan, Esq., I.C.S.,
Joint Secretary, Board of Revenue.

Sir Gerald Priestley, K.C.I.E., I.C.S., Commr. of Land Revenue & Irrigation.

Government Endt.No.3940 H/46-4 d/7-1-47. Read the following:-
-Do- 58 H/46 d/7-1-47.
From the Collector of S. Kanara, D.Dis 765/47 d/14-2-47.

REFERENCE:

The Collector of S. Kanara is requested to direc the Minor Irrigation staff to investigate the scheme properly and to submit a clear report on the following points:-

(i) Will silt clearance alone increase the ayacut by acres?
(ii) Can the silt be deposited on the bund of the tar or elsewhere?
(iii) Are there proper baling stands?
(iv) Is any water rate being levied by the Government?
(v) Will Government get any additional revenue?

Necessary estimate should also be sent along with the Collector reply.

2. The Collector is requested to treat this reference as specially urgent and to submit his reply as early as possible.

Irrigation - (South Kanara District)- Udipi Taluk- Giliyar, Manur etc villages - Varunathirtha tank - silt clearence and repairs - further report.

Ref. G.5675/46-3 dated 14-3-47 from the Board of Revenue

'The Minor Irrigation staff has invostigated the scheme further and prepared necessary estimate for silt clearance and repairs, as directed by the Board. The information called for in para 1 of the Board's reference is given below:-

(i) The silt clearance alone will not increase the ayacut by 40 acres but on account of desilting and the repairs proposed to be carried out an additional extent of about 15.38 acres is expected to be irrigated.

(ii) The silt can be deposited on all the sides of the tank but it is proposed to deposit it on the northern and eastern sides.

(iii) There are no baling stands at present, as irrigation is carried on by direct flow. During summer temporary baling stands are put up to bale water for raising seedlings for the 1st crop.

(IV) Water rate is not being levied by the Government now.

(V) Additional revenue can be got by levying water rate for the extent of 15.38 acres which is expected to be brought under II crop cultivation and also for seed-beds.

2/. The estimate prepared by the Minor Irrigation staff and the sketches of the tank and its ayacut are enclosed. The present estimate of Rs. 3800 provides for the complete protection of the tank by the raising of its revetment by 2 ft. so as to prevent silted up earth from being carried into the tank again by the rain water. The approximate cost reported as Rs.1000/- in my previous report was based only on a rough estimate of the work.

nc

***

Sri Nagappa Holla, a leading ryot of Manur village, undertakes to collect half the cost of the repairs from the interested ryots and to pay it to the Government.

2. Enquiry shows that an additional outturn of about 5½ tons of paddy may be expected to be realised every year if the repairs are carried out. As the lands which will be benefitted stands already charged with land revenue assessment, there is no likelihood of any additional revenue being realised unless water rate is levied from the ryots, who utilise the water from the tank for irrigation purposes.

MADRAS.

Sir,

IRRIGATION:- (South Kanara) - Udipi Taluk - Giliyaru, Manur Etc Villages - Varunathirtha tank - Silt clearance and repairs - Report submitted.

Ref. 1. Govt. Memorandum No. 584/46-7-1-47.
2. Board's Ref.C.No. 5675/42-2, dated 15-1-47.
3. Board's Ref.G. 361-47-1, dated 22-1-47.

Some ryots of Kota, request that the Varunanthirtha tank in S.No. 202/6 in Giliyar Village, Udipi Taluk may be impproved to help bringing in more land under II crop cultivation. I enclose a copy of the Udipi Tahsildar's report L.Dis. 489-47 dated 29-1-47 and the Miner Irrigation Supervisor's report N.Dis. 30-47 dated 8-2-47 (para one and two).

2. The cost of desilting the tank and of putting up granite slabs allround is estimated at Rs 30,000. The benifit occuring from the work will not be commensurate with the heavy expenditure involved. It is estimated that it may be possible to bring about an extra extent of 40 acres of land under II cultimation if the silt is completely removed from the tank. A sum of Rs 1000/- will be necessary to remove the silt. The application of the kudimaramat Act to get this work done by the ryots is not in vogue in this district. and silt clearance by Government is not usual in the case of irrigation.

3. The application received with the Government Memorandum and the site plan are enclosed.

For Collector.

L.Dis.489/47.

Resubmitted to the Collector of South Kanara, Mangalore.

I have inspected the tank in question which stands registered as Tc.202/6 of Giliar Village along with the Minor Irrigation Overseer, Udipi. It is a peramboke tank and is 2.06 acres in extent. It is a natural spring tank with a perennial supply of water. At the time of inspection, some of the signatories to the petition were also present. Enquiry shows that silt has not been removed from the tank for about a decade, resulting in accumulation of silt and diminution of water in the tank.

3. At present S.Nos.196, 199, 200 and 201 of Giliyar village measuring 5.89 acres and S.Nos. 45, 46, 47, 48, 50, 51, 52, 53, 54, 55, 61, 62, 81, 82, 84, 85, 86, 87, 88, 89 and 90 of Kotathattu village measuring 35.72 acres are cultivated with suggi crop with the supply of water from this tank. The portion marked in pencil is now being cultivated with IInd crop in Kotathattu village. If the silt is removed, the water in the tank will be sufficient to irrigate the western portion upto the river, viz., S.Nos.28,30, 31, 33, 34, 35, 36, 37, 38, 39, 40 49, 56, 57, 58 and 59 which measure in all 39.97 acres. No further extent in Giliyar village can be irrigated even after the improvements. Thus the ayacut of the tank which is at present 41.61 acres can be increased to about 81 acres.

4. The cost of removal of the silt from the tank is estimated by the Minor Irrigation Overseer at about Rs.1,000/-. Though it is stated in the petition that the silt may be removed and the tank get repaired, at the time of our inspection the villagers pressed that all the four sides of the tank should also be covered with granite slabs. Granite slabs have to be brought from a distance of 6 miles and to carry out all these repairs, the cost is estimated by the Minor Irrigation Overseer at about Rs.30,000/- and therefore, the benefit is not commensurate with the cost involved. The removal of silt will no doubt increase the area under IInd crop cultivation to about double the present extent and will not also cost over Rs.1,000/-. As this will help food production, the work may be taken up in April or May this year in consultation with the Minor Irrigation Supervisor, Mangalore, if necessary.

A combined eyesketch showing the ayacut of the tank is enclosed.

(True copy)

N.Ref:765-47-A5.

Forwarded to the Minor Irrigation Supervisor, Mangalore for very early remarks.

2. As the Government have called for a report in this case, the matter should be treated specially as urgent.

(Sd.) K.GHULAM MAHMOOD,
5-2-47.
For Collector.

Endorsement N.Dis.30/47.

Resubmitted to the Collector of South Kanara.

2. The request of the petitioners is to remove the silt and repair the sides of the tank. This does not come under the irrigation scheme for which the Minor Irrigation Staff is appointed as the cultivation from this can be done only by baling and not by direct flow. There are several wells like this to be repaired in this district. Hence I submit that the Government are not spending money on this till now.

G.O. Ms No. 171 d 27.1.48

S. 14.5.47 In its Reference read above the Bd of Rev has recommended that repairs to the Varunathirtha tank in S. No. 202/6 in Kyriyar village, Udipi Taluk, South Kanara district may be executed at an estimated cost of Rs 3800/- as a special case. The question of obtaining a subsidy from the Govt of India for the scheme under the Grow More Food scheme has been examined. In his letter D. Dis 12,900/47 d 13-11-47, the collector of South Kanara has reported that the

2/ 90

amount of subsidy that can be claimed from the Govt of India will be Rs 1900/-. The collector's calculation is not correct as credit has not been taken into for the capitalised value of additional revenue. The scheme is not eligible for any subsidy from the Govt of India

'X' on p 5 ns

that will be realised by the execution of the repairs.

para 4 on p 5 ns

2. In his letter dt Dis 10 S 04/47 dt 29-8-47, the collector has reported that one Sri Nagappa Holla, a leading ryot of Hanur village has undertaken to collect an amount of Rs 1900/- ~~representing~~ from the interested ryots and to pay it to the Govt. The Govt have decided that the work may be undertaken if the amount of Rs 1900/- is collected from the interested ryots and deposited in advance. The collector is requested to inform the petitioners accordingly.

23/6/47

Finance (Expr-C) dept.

The Board's reference on pp. 8-9 C.F. and the draft order overleaf may be perused.

2/ It will be observed from page 9 C.F., that, by carrying out the silt clearance and repair works to the tank in question, an additional extent of 15.38 acres only will be brought under cultivation. It is not clear whether the ryots who will benefit by this work have been approached for contributions.

Revenue may perhaps be requested to consider this point in consultation with the Board of Revenue before issuing the order overleaf. For orders.

C&W 27.6.47

7/6/47 CAS 27.6.47

Efforts should be made to get a contribution from the ryots whose lands would be benefited. DWD A

The Govt of India may also be addressed to sanction a subsidy under the G.M.F. scheme. DWD See below.

C&W 27.6.47

The rate of water-rate on the 15.38 acres & the consequent addl revenue expected from the scheme are not stated. As the estimated cost is Rs. 3,800, probably the subsidy obtainable from the G.of I. would be less than Rs. 500 & I think we do not generally make a claim in such cases. Rev. may, however, consider the point, in consultation with PW if necessary. B

DWD 28.6.47 Rev.

Rev Dept

Jo 28/6

Please see the draft order on p 1 ante and the remarks of Finance above.

2 Refer A/ above — It is for orders whether the Govt & BoR may be addressed in the matter.

3 B/ above — under the existing instructions claims for subsidy from the Govt of India on works which are likely to fetch a subsidy of Rs 500/- & above should be ignored. In the absence of particulars referred to at B above & the additional number of kans of foodgrains which may be expected to be grown on account of the repairs to the tank it will not be possible to calculate

Fin no No 37617 EC1 28-6-47

RC 3988 H/47 27.6.47

157 PWR.M not put up 6-6-46

the amount of subsidy obtainable from the Govt of India. The particulars may be called for from the Bd of Rev before it

4. With reference to paras 2 and 3 above, a draft memo. is submitted for approval. It may be sent to PWD and Fin for acceptance.

PUBLIC WORKS DEPARTMENT
25 JUL 1947
ASSISTANT SECRETARY TO GOVERNM

P.W.D. (N)

A.S.

This department last saw the case at the bottom of p. 1 ante. Further notes of finance and Revenue departments and the draft Memo. below may be perused. This department may accept the draft Memo. put up by the Revenue Department below.

2. M at the bottom of p. 2 ante: Orders were issued in Govt. Ms. No. 1576, P.W., dated 6.6.1941 to the effect that application should be made for a subsidy from the Govt. of India in respect of all irrigation schemes, irrespective of the cost involved provided that the amount of subsidy obtainable was likely to be not less than Rs. 600/-. The P.W. dept. seem to forget these orders. ~~The orders in the Govt. apply to small schemes proposed to be taken up for execution by P.W.D.~~ It is noted that this department is not aware of the orders passed by the Revenue Deptt. on the letter from the Govt. of India dated 12/19-11-1945 quoted in the G.O. at (5) in respect of Minor Irrigation Schemes. It is also not clear whether the orders at (5) will apply to M.I. schemes also.

3. With these remarks, the file may be returned to Revenue.

To AS

-X-

The proposal in this file is for the clearance of silt in and repairs to the Varunathirtha tank in Udipi Taluk, South Kanara district. The work is estimated to cost Rs 3,800/- The Bd of Rev recommended that the proposal of the Collector of South Kanara to execute repairs to the tank as provided for in the estimate for Rs 3,800 might be sanctioned as a special case - Please see the report on pp 8-9 C

para 2 on p 7 C

2 At the instance of Finance the Bd of Rev was asked to instruct the Collector of South Kanara to make efforts to get a contribution from the ryots whose lands would be benefitted by the execution of repairs to the tank and to report the amount which the ryots might be expected to contribute - The Bd of Rev was also asked to ~~state~~ furnish particulars of the amount of subsidy ~~contemplated~~ that may be obtained from the Govt of India under the G.I.F. scheme ~~in connection with the repairs to the tank with a view to address the Govt of India for subsidy~~ - The Board's reply is on pp 12-14 C

Vide 'A' on p 2 ante and para 1 of the memo on p 10 C

Vide 'B' on p 2 ante and para 1 of the memo on pp 10-11 C

para 2 on p 13 of

3. Point 1) i.e contribution from the ryots :- It will be seen that one Sri Nagappa Holla a leading ryot of Manur undertakes to collect half of the ~~x~~ cost of the repairs from the interested ryots and to pay it the Govt. The contribution from the ryots ~~amounts to half the cost of the work i.e~~ may therefore be fixed at Rs 1900 ~~for. may be accepted~~

4 Point 2) i.e subsidy from the Govt of India:

para 2 on p 9 of

The repairs, if carried out, are expected to bring an extent of 15.38 acres under second crop cultivation ~~and also for which~~ and to yield an additional revenue of Rs 138-7-0 by ~~the~~ water rate. In this reports on pp 13-14 of, the collector has stated that an additional outturn of 5 1/2 tons of paddy may be expected to be realised every year if the repairs are carried out and that the amount of subsidy that can be claimed from the Govt of India is Rs 1900/

para 2 on p 13 of

'X' on p 14 of

X

Ind Govt of India letter at p 5 of (11)

The collector's calculation does not seem to be correct as credit has not been taken for the capitalised value of additional revenue. The amount that can be claimed from the Govt of India will be

$$\text{Rs } \frac{3800 - [1900 + (20 \times 138)]}{2} = \frac{-860}{2}$$

$$= -430 \text{ Rs/-}$$

~~100 x 138~~ / 1900 = 7/2

i.e no amount can be claimed at all. Also the ryots will more than 2/3 on the onlay being thus ineligible for subsidy, the Govt

5. In the circumstances stated above, ~~it is for orders whether~~ the contribution from the ryots amounting to Rs 1900/- ~~will~~ is ~~be~~ accepted, ~~and~~ this Govt's contribution will be Rs 3800 - 1900 = Rs 1900/-. It is for orders whether the work may be sanctioned accepting the ryots' contribution of Rs 1900/-, ~~and~~ the balance of Rs 19

6 If approved it may be ordered that the work should be commenced only after the contributions are collected being borne by this Govt. P.W.D and Fin. may see again for remarks before circulation.

8/12/47.

No contributions need be claimed from the Govt in the circumstances stated at p.s supra. The Collr of S.K. Mapsa asked to inform the Parties that the Govt will be prepared to undertake the improvements if the applts deposit in advance one half of the cost viz Rs 1900/-

Silt clearance works are usually undertaken by the proprietors, and Govt undertake such works only when the applicants deposit 75% of the estimated cost. We may therefore take it that the applicants in this case will be asked to deposit their share of the cost.

P.W.D & Fin may be informed accordingly before circulation.
